

.: Scoreboard II .:

Basics Manual

Match Setup

Scoreboard II opens on the **Match Setup** screen, which looks like this:

- The **match title** (1) is the text to be displayed on top of the scoreboard, which is usually the name of the tournament or league. To edit, click the text field, type the match title, then press **Enter** key to confirm, or **Esc** key to cancel editing.
- The **names of the competing teams** (2) and (3) can also be edited on this screen.
- In Scoreboard II, the official colors of both teams are used for easier identification for the operator and the audience, as well as basic scoreboard visual effects. To edit, click any of the **Change Team / Colors** buttons (or anywhere in (4) or (5)). This will then proceed to the **Team Setup** screen.
- The scoreboard operator may switch the teams' sides of the court by clicking **Switch Sides** (6).
- If the scoreboard operator has made changes on the match title and/or the competing teams, and wishes to save this setup on the next time Scoreboard II is launched, click **Save As Default Match Setup** (7).
- To start a basketball match, click **Play Basketball** (8).
- To start a volleyball match (or badminton, table tennis, pickleball), click **Play Net Sport** (9).

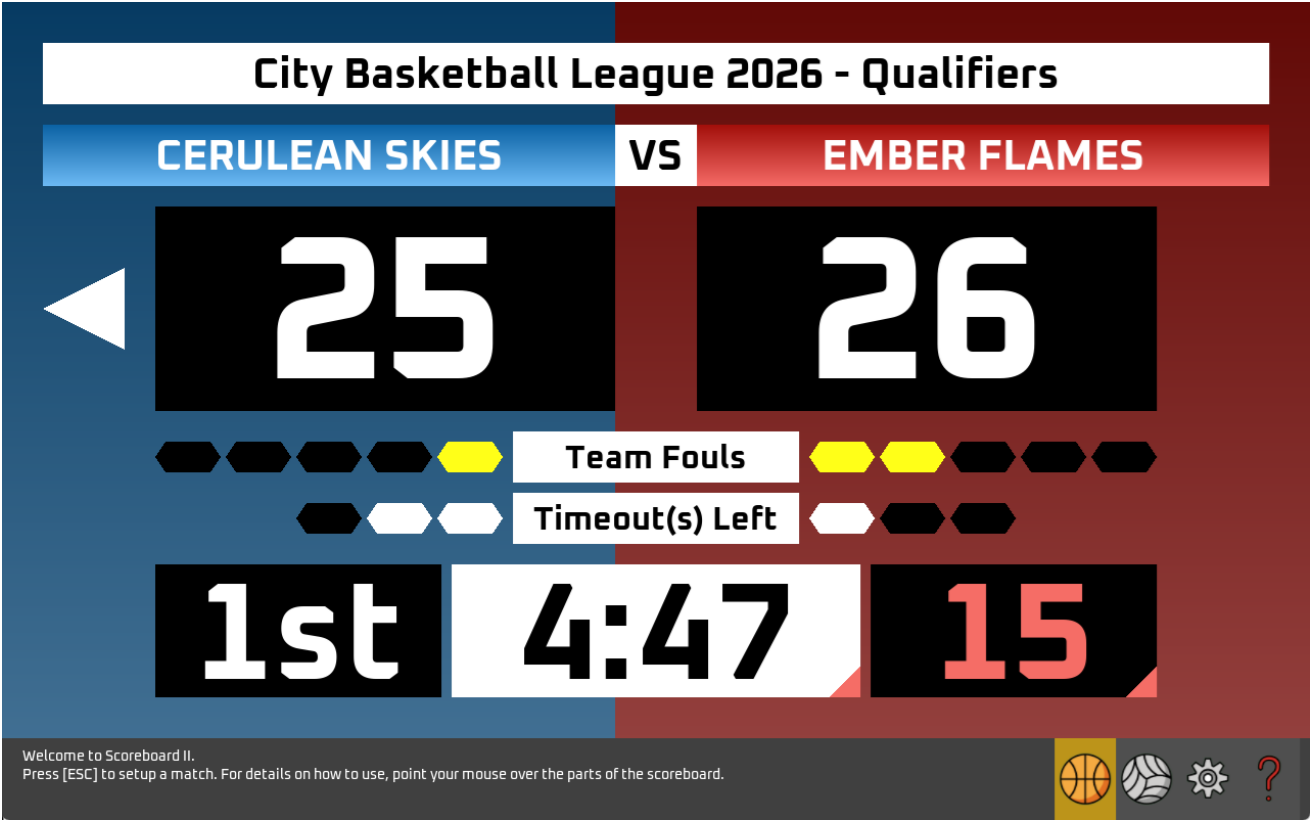

Editing Team Information

If the scoreboard operator decides to change team info/colors, *Scoreboard II* proceeds to this screen:

- On this screen, it is also possible to edit the **team's name** (1).
- To adjust the uniform colors, choose which color to edit first by clicking any of the tabs in (2). Next, use the **sliders** (3) to adjust the **hue, saturation, and lightness** of the selected color.
- It is also possible to change the color of the opponent team by choosing which team of court side to edit (4).
- If the team only has a single, solid color on their uniforms (not including the name and jersey number), click **Set As Single Color** (5) to make the Main Color and 2nd Color the same color.
- If the scoreboard operator wishes to save the team being edited for future matches, click **Save to List** (6), then select a slot on the **Teams List** (7) to save the team's name and colors. Note: Choosing a slot on the list that is already occupied will be overwritten. In this version of *Scoreboard II*, it is possible to save up to 64 teams.
- To apply all changes, click **OK** to return to the **Match Setup** screen.

Basketball Scoreboard

In the basketball scoreboard, the operator is able to do the following:

- Run, stop, and adjust the timers (Period Timer and Shot Clock).
- Increase and decrease the Score, Team Fouls, and Consumable Timeouts of both teams.
- Change where the Possession arrow points.
- Play the horn (buzzer) sound, as well as user-defined sound effects.

These can be mostly controlled by clicking the graphics on the scoreboard, but it is recommended to operate using the keyboard. By default, the scoreboard can be controlled using the following keys:

Team Controls

Team on Left Side					Team on Right Side				
Score	-1	Shift+F	+1	F	Score	-1	Shift+J	+1	J
Team Foul	-1	Shift+D	+1	D	Team Foul	-1	Shift+K	+1	K
Timeout	-1	S	+1	Shift+S	Timeout	-1	L	+1	Shift+S
Possession	A				Possession	; (semi-colon)			

Timer Controls

Period Timer	Play/Pause	Space							
Shot Clock	Play/Pause	B	Reset 14	V	Reset 24	N			

Other Scoreboard Controls

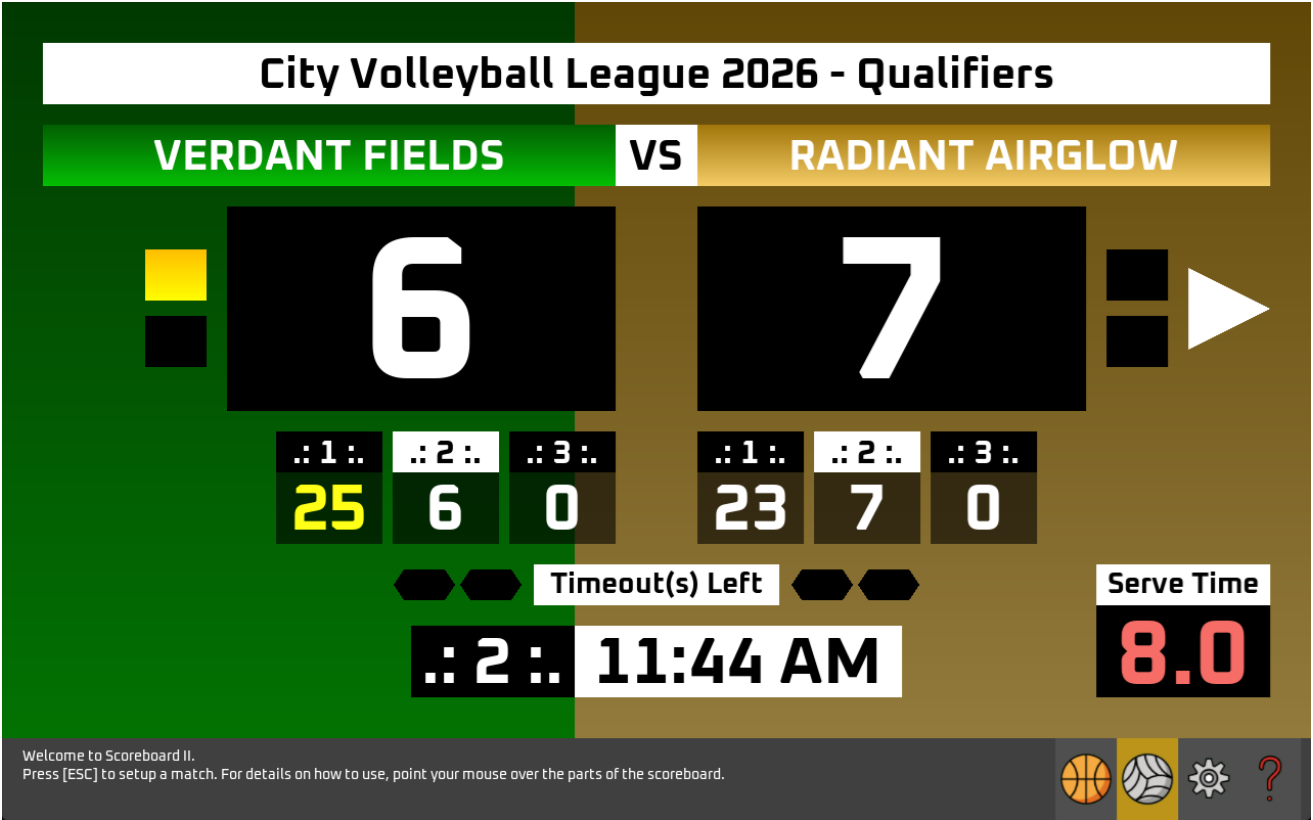

Play Horn Sound	Hold Backspace	Switch Court Sides	Enter
Previous Period	F3	Next Period	F4

Minute	-1	Shift+S	+1	S
Second	-1	Shift+D	+1	D
0.1 second	-1	Shift+F	+1	F
Show/Hide Period Timer		Space		

Adjusting Shot Clock				
Second	-1	Shift+J	+1	J
0.1 second	-1	Shift+K	+1	K
Show/Hide Shot Clock		B		

Net Sport Scoreboard

In the net sport scoreboard, the operator is able to do the following:

- Increase and decrease the Score and Consumable Timeouts of both teams.
- Change where the Service arrow points.
- Change what set or game is now being played.
- Play the horn (buzzer) sound, as well as user-defined sound effects.

These can be mostly controlled by clicking the graphics on the scoreboard, but it is recommended to operate using the keyboard. By default, the scoreboard can be controlled using the following keys:

Team Controls

Team on Left Side			
Score	-1	Shift+F	+1 F
Timeout	-1	D	+1 Shift+D
Serve	S		

Team on Right Side			
Score	-1	Shift+J	+1 J
Timeout	-1	K	+1 Shift+K
Serve	L		

Other Scoreboard Controls

Play Horn Sound	Hold Backspace	Switch Court Sides	Enter
Previous Period	F3	Next Period	F4
Show/Run/Hide Serve Time	Space	Go to Match Setup Screen	Esc

The Net Sport Scoreboard is designed to be compatible with the following games:

- Volleyball
- Badminton
- Table Tennis
- Pickleball

To change which game/ruleset to use, click **Settings** (the gear icon), then go to **Net Sport Settings**. From there, you may change the number of points to win a set, the number of sets to win the match, the time allotted for serving, and other additional adjustments.
